

## **ABFAS New Board Certification FAQs**

Q. I am currently Board Qualified, so I already took a CBPS exam. What happens to me?

A. The current Part I CBPS exam does not psychometrically substitute for the NEW CBPS exam, so you will still need to pass another CBPS exam (and Case Review) to become certified. Which one you'll take will depend on when you take it. If you take the exam in spring of 2019 or spring of 2020 – you will take the current Part II CBPS exam. If you choose to wait until after spring of 2020 – you will take the NEW CBPS exam.

In summary – if you are currently Board Qualified you will still need to pass another CBPS exam and Case Review in order to become Board Certified.
