

Join Us in Texas!

Join us in San Antonio for the [American College of Foot and Ankle Surgeons \(ACFAS\) Scientific Conference!](#) Stop by our booth, located in the Park View lobby, where you can ask any questions you might have about the ABFAS certification process. And while there, check out our new website. We're interested in hearing your feedback before we launch it!

February 19-22, 2020
Park View Lobby
Henry B. Gonzalez Convention Center
San Antonio, TX

Want to learn more about successfully navigating the ABFAS certification process? Stop by the HUB on Thursday at 11:00 am. where ABFAS Immediate Past-President, Danny J. Choung, DPM, and President, Keith L. Jacobson, DPM, will speak on **“Preparing for Success – ABFAS Board Certification Process.”**

And that’s not all! Later this year, ABFAS will be attending even more conferences. Follow us on [Facebook](#) and [LinkedIn](#) for more information about these programs.

We hope to see you at the following conferences:

[Midwest Podiatry Conference](#)

April 29 – May 2, 2020
Hyatt Regency Chicago
Chicago, IL

[The Western Foot and Ankle Conference](#)

June 25 – 28, 2020
Disneyland Hotel and Convention Center
Anaheim, CA

[APMA- The National](#)

July 23 – 25, 2020
Hynes Veterans Memorial Convention Center
Boston, MA

[TPMA Southwest Foot and Ankle Conference](#)

September 24 – 26, 2020
Irving Convention Center
Irving, TX

[American Society of Podiatric Surgeons \(ASPS\)](#)

October 9 – 10, 2020
New Orleans, LA

Successful Part II CBPS Preparation

ABFAS Spring Part II Board Certification CBPS examination registration is open.

Foot Surgery CBPS
RRA Surgery CBPS

Exam Date: May 13, 2020
Registration Closes: April 29, 2020
Last Day to Withdraw Without Penalty: May 6, 2020

In order to prepare for the Part II CBPS examinations, candidates should start with the ABFAS exam preparation tools. Candidates who use these tools, including the [CBPS practice exam](#), and the [“Navigating the CBPS”](#) video, perform better in the CBPS exams.

Take the Online CBPS Practice Exam

The [CBPS practice exam](#) is designed to help you become more familiar with the functions and navigation of the exam. However, waiting until test day to learn how the exam functions could result in lost time and frustration.

It is very important to become familiar with the following functions before test day:
Searching the list of selections.
Making selections.
Navigating from tab to tab.
Viewing and zooming images.

Access to the CBPS practice exam is unlimited and the more times you practice, the more familiar you will become with the user interface and how the CBPS system responds to entries. This will save you time on each case and will allow you to focus on the content of the case and not how the exam works.

Watch the CBPS Exam Video

ABFAS has developed a video with tips on navigating the CBPS exam, answers to common questions, and how to approach the exam. Be sure to watch this video, [“Navigating the CBPS Exam”](#) before exam day.

When Taking the CBPS Examination

Consider the relevant aspects of patient management such as case history, physical examination, imaging, labs, diagnostic procedures, diagnosis, treatment, and in some cases, follow-up diagnoses and treatments. For example, if you are hesitant about whether a procedure is warranted, you should make the decision based on clinical indications.

Case-focused physical examinations and patient work-ups are as important as diagnosis and treatment. While collecting patient information, you must balance thoroughness with efficiency, as well as balancing quality versus quantity. You should select information that is specific to the problem that is presented in the case. Since there are a limited number of choices, it is important to be very specific to demonstrate that you have the ability and knowledge to manage the case in an appropriate manner.

Common CBPS Mistakes to Avoid

Jumping to a Diagnosis and Treatment

A common mistake made on the CBPS exam is to jump to a diagnosis and move to treatment without providing evidence that the diagnosis and treatment were selected in a thoughtful manner. For example, seeing an image of a patient with a bunion and deciding to take an x-ray and then do a procedure would be a mistake. We need to know that you performed an appropriate case-focused physical examination. This must be demonstrated by selecting the physical examination options that relate specifically to the problem presented and/or support the determination of a diagnosis and treatment plan, where applicable.

Not Providing a Case-focused Work-up

Working up the patient to prepare the patient for surgery is not the purpose of the examination. The purpose is to come up with a diagnosis and a treatment plan that is pertinent to the case itself. Concentrate on the case-specific information presented to determine if you need any additional evidence for the diagnosis and treatment of the case. It is important to focus on the management of the case, not the surgical work-up.

For additional CBPS resources, including instructions for the CBPS Practice Exam [click here](#).

ABFAS' Annual Newsletter

Catch up with our annual ABFAS newsletter! This year’s newsletter features stories on the exciting changes coming to ABFAS certification. With an introduction by Board President Keith L. Jacobson, DPM, additional stories profile our newly elected Board members and officers, the 2019 Michael L. Stone Award winners, our #footfirst campaign, and a whole lot more! You can read, download, and share our [newsletter here](#).

If you have not received a paper version of our newsletter from your mail carrier, please contact us at info@abfas.org.

Congratulations to the New ACFAS Board Members!

This past December, the American College of Foot and Ankle Surgeons (ACFAS) Fellows elected three new board members. All three members happen to be ABFAS Past-presidents! Congratulations to Christopher D. Lotufo, DPM, FACFAS, Alan Ng, DPM, FACFAS, Matthew E. Williams, DPM, FACFAS on their new appointments.

ABFAS sets surgical board certification policy, and administers the In-training, Board Qualification, Board Certification, Recertification and Self-assessment examinations. ACFAS is the professional society for foot and ankle surgeons that provides education, research, advocacy and community to advance the profession of foot and ankle surgery.

You can read more about [ACFAS here](#).

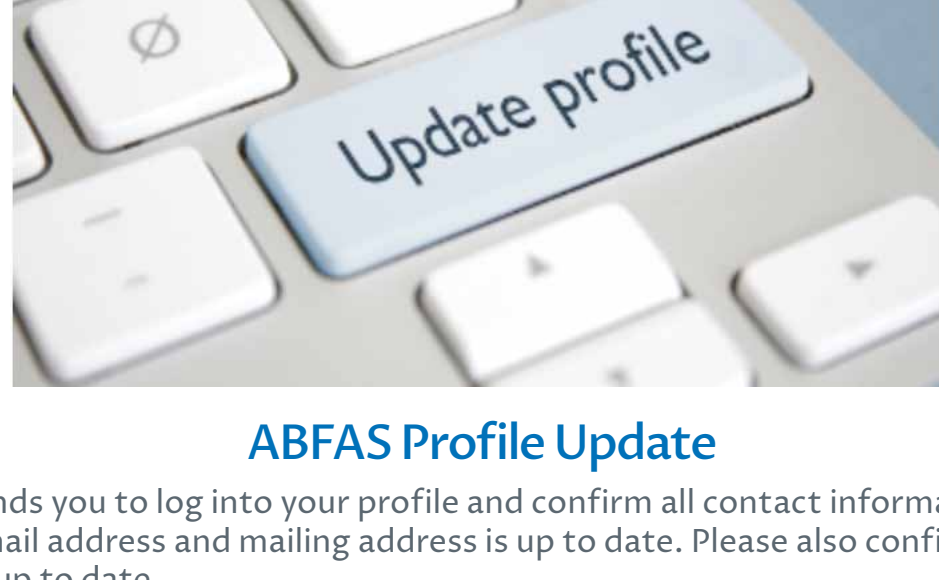

Lauren McCarthy, DPM, PGY-3 resident, at Katherine Shaw Bethel Hospital, submitted by BRANDY Gumbiner, DPM, Residency Director.

We Want to See You #footfirst in 2020!

ABFAS has a new exciting news, but we need your help! Very soon, ABFAS will be launching a new website. ABFAS wants to show DPMs from across the country on our new site, social media channels, and newsletters.

Send in your photos of DPMs studying, performing cases, interacting with feet, performing on feet, or even just hanging out in the OR.

Send your best photos to footfirst@abfas.org. We will select a monthly winner with the best photo who will receive a great ABFAS prize and recognition on our Facebook page. Don't forget to share your photos using #footfirstABFAS

ABFAS Profile Update

ABFAS reminds you to log into your profile and confirm all contact information, including email address and mailing address is up to date. Please also confirm that all licenses are up to date.

To update your license information, email your license information to licenses@abfas.org or you can fax your information at 415-553-7801.

Safe Sender

ABFAS would like all communication to find its way to your inbox. Please add info@abfas.org, updates@abfas.org, and scheduling@abfas.org to your safe sender list to ensure that all of our emails arrive in your inbox and not in “spam”.
