  - ABFAS Newsletters

**Important information on identification requirements, security, and emergencies**

What to Expect on Exam Day

Learn about what to expect on exam day, including what you can expect to see during the exam, how to earn score points, and common mistakes to avoid. There are links to the exam answer key and practice exam.

**Didactic Exam Preparation**

Prepare for Your Part I Examinations

The Part I Board Qualification exam consists of two formats, the Computer-Based Programmed System (CBPS) and the Part I examinations. Whether you are preparing for your first Part I examinations in the spring, or your first Part I examinations next fall, the new platform provides you with all the resources you need.

- **Computer-Based Programmed System (CBPS)**
  - Exam questions are produced. Every candidate should go through all these practice exam, along with other materials on how to navigate the exam, and how the examination questions are produced. Every candidate should go through all these practice exam, along with other materials on how to navigate the exam, and how the examination questions are produced.

- **Part I Exams**
  - The Spring Part I examinations take place next week. Whether you are preparing for your first Part I examinations in the spring, or your first Part I examinations next fall, the new platform provides you with all the resources you need.

**Help to Become More Efficient This Spring**

**Safe Sander**

ABFAS would like to communicate with residents who have received permission to examine. Please visit the ABFAS Resident website for more information.

**The 2020 Stone Award Recipients**

ABFAS proudly congratulates (left to right) Ryan Stone (Temple University School of Podiatric Medicine), Andrea Batra (Temple University School of Podiatric Medicine), (Dr. William M. Scholl College of Podiatric Medicine), Chao Ehee, (Podiatric Medicine at Midwestern University), Karla De La Mata (New York College of Podiatric Medicine), Natasha Bhagat (Barry University School of Podiatric Medicine), and Matthew E. Greenblatt (Kent State University College of Podiatric Medicine). ABFAS is proud to congratulate these students who exemplify the highest standards of professionalism, deportment, and ethics in the student's own interactions with peers, patients, and society.

The Stone Awards, focusing on outstanding professional conduct, are named in honor of our 46th Annual Meeting this February.
